VISUAL MANAGEMENT

LINE CHART

What it is:
A line chart is used to illustrate one or more sets of data over a period of time.

The benefits:
- Simple, easy to use, and interpret. Shows trends.
- Allows for making comparisons of multiple sets of data

The steps:
1) Collect the data.
2) Draw the time line or sequence scale on the 'x' axis.
3) Plot the variable(s) you are measuring on the 'y' axis.
4) Interpret the line chart.
